

A REINFORCED GLOBAL CLIMATE MOBILIZATION - NEW PRIVATE INVESTMENT FIRMS ENDORSE THE ONE PLANET PRIVATE EQUITY FUNDS INITIATIVE

Monday 4th October 2021, Élysée, Paris - In November 2020, the CEO representatives of five global private investment firms launched the One Planet Private Equity Funds (OPPEF) initiative to advance the understanding of climate-related risks and opportunities within investment portfolios to better and more sustainable businesses.

Today, three global private investment firms announce their support for the OPPEF initiative.

They commit to actively collaborate within the OPSWF Framework, to the sharing of investment best practices, and develop a sectoral agenda, namely on energy transition and renewable energy, technology and innovation, utilities, real estate, transport, and infrastructure. They will also contribute to relevant publications and thought leadership.

The new members of the One Planet Private Equity Funds initiative are:

Eurazeo
Tikehau Capital
TPG

EURAZEO

TK TIKEHAU
CAPITAL

TPG

Notes to Editors:

With the common goal to accelerate the transition towards a low carbon economy, a group of six sovereign wealth funds (Abu Dhabi Investment Authority - ADIA, Kuwait Investment Authority - KIA, New Zealand Superannuation Fund - NZSF, Norges Bank Investment Management - NBIM, Public Investment - PIF, Qatar Investment Authority - QIA) established the One Planet Sovereign Wealth Funds Working Group (“OPSWF”) in December 2017. This unique collaborative platform has been joined since then by nine other sovereign wealth funds, driven by the same willingness to fight climate change and to contribute to the transition towards a low-carbon economy.

In July 2018, the group published the One Planet Sovereign Wealth Funds Framework setting out three principles to accelerate the integration of climate change analysis into the management of large, long-term and diversified asset pools.

Principle 1: Alignment

Build climate change considerations, which are aligned with the SWFs’ investment horizons, into decision-making.

Principle 2: Ownership

Encourage companies to address material climate change issues in their governance, business strategy and planning, risk management and public reporting to promote value creation.

Principle 3: Integration

Integrate the consideration of climate change-related risks and opportunities into investment management to improve the resilience of long-term investment portfolios.

The founding members of the OPPEF initiative are: Ardian, The Carlyle Group, Global Infrastructure Partners, Macquarie Asset Management (MAM), and SoftBank Investment Advisers.
